

DOWNRIGHT ABUSE.

I've sure been called a lot of things
Since I've been fooling round on earth.
They've even called me names & jinks,
That cast reflections on my birth.
They've called me "graffer," "snide" and
"crook"—
Yes, they have named me worse than
that.

But here comes some man with a book
That calls me "proletariat!"
Now, I have lived the best I could.
I've paid my debts when necessary.
I've been, I reckon, average good.
For one so human and contrary.
But all my effort in the line
Of keeping straight and all of that
Is wasted, and my eyes run brine
If I'm a "proletariat!"

I don't know what the word can mean.
And, tell the truth, I'm scared to learn.
Far as I know I've never seen
A sample and don't care a darn
If I should waste the brief remains
Of what short time I have at bat
Without once getting through my brains
The sense of "proletariat!"

Yet while I live and have my health
I'd have the whole world understand
That, though I've neither fame nor wealth,
There's none that dares to lift his hand
And swear that I, peace loving man
That tries to side step family spats,
Could e'er be listed with the clan
That's labeled "proletariat!"

Pleasant Prospect.

A young fellow in Pittsburg intended
to ask her father's consent the other
evening, but changed his mind. He
has decided to wait till the old gentle
man is disabled from a fall on the ice
or till something equally propitious
turns up. It happened in this way:

When he reached the house, the girl
met him at the door, pearly tears steal-
ing down her fair cheeks.

"Oh, George," she whispered, "I am
so glad you have come. Please go into
the library and see if you can calm
father; he is so excited and is raging
about, knocking over the furniture and
breaking things."

"Certainly," George said briskly.
"What is the matter with the old gen-
tleman?"

"I'm sure I don't know," she said.
"He was all right, and I just began to
tell him that you wanted to marry
me."—Lippincott's.

Newbro's Herpicide

IS PRAISED BY

PAULA A. EDWARDES

Paula A. Edwardes, the well-known theatrical star, writes
as follows:

I am charmed with Newbro's Herpicide. It is a re-
freshing hair remedy, producing a beautiful luster and
a luxuriance of growth; at the same time keeping the
scalp free from dandruff.

Very truly yours,
New York City. (Signed) PAULA A. EDWARDES.

Good results from the use of Newbro's Herpicide mean
as much to one person as to another, but on the other hand,
the fact that leading theatrical stars prefer Newbro's Her-
picide is an important point in its favor. Professional peo-
ple have an inclination and an opportunity—not enjoyed by
others—to discriminate in their choice of toilet remedies and
their opinions should not go unheeded.

The extraordinary success of Newbro's Herpicide is due
to the simple fact that it kills the dandruff germ. While
other remedies treat the disease that results in hair loss,
Newbro's Herpicide destroys the cause of the disease, af-
ter which Nature grows the hair, if it is not too late.

Chronic baldness cannot be cured, but before the hair fol-
licles are too badly diseased, one can, by careful treatment
and intelligent sanitary care, keep down and ultimately de-
stroy the tiny vegetable growth (dandruff germ) whose
continued presence in the sebaceous glands of the scalp
means hair destruction.

Ladies become enthusiastic over Newbro's Herpicide, be-
cause it brightens up the hair and keeps it light and fluffy.

Stops itching of the scalp almost instantly.

Guaranteed under the Food and Drug Act June 20, 1906, Serial
No. 915.

BOYD'S PORTABLE FIRE-PLACE

is especially adapted for turpentine men, sawmill men, or any one
where a temporary fire-place is needed. The cut herewith gives a
front view of this invention and shows how same can be attached to
any frame building, either where fire-place would be built, or can be
set in window.

It is made of the best galvanized steel, is light, strong and dura-
ble. This portable fire-place can be moved from place to place and
taken down or set up in a very few minutes, thereby saving an ex-
pense which would incur in making a chimney of sticks and mortar
or brick.
